# UPVC & ALUMINUM WINDOWS & DOORS

## Water & Air Tightness

We conduct our business and activities with the utmost diligence and integrity. has context menu

## Security

Superior security is provided by Window Point's uPVC windows with high-tech multipoint locking systems. has context menu

## Long Life & Low Maintenances

uPVC windows from Window Point don't require any upkeep. Even in tropical or coastal weather, they don't rust or corrode. Window Point windows take little upkeep to keep the frames in great shape.

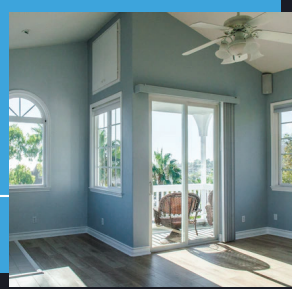

# UPVC & ALUMINUM WINDOWS & DOORS

## Thermal Insulation

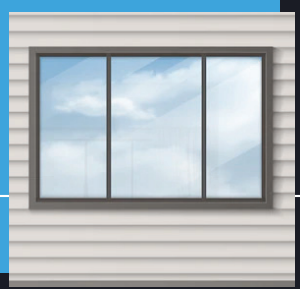

Windows from Window Point have been tried and tested in both chilly and tropical climates. Excellent thermal insulation clearly results in significant energy savings, whether in cold and warm climates.

## Sound Insulation

Combining the uPVC windows with specialised insulating glass panels can greatly reduce noise levels, especially in locations with high traffic (like close to airports).

## Designed for Extreme Weather Conditions

Window Point uPVC windows are exposed to extreme weather, including prolonged exposure to cold, salty sea air, protracted storm intervals, and intense sunlight. Specially designed for tropical regions, the carefully developed material composition has a great impact resistance.

# WINDOW BLINDS

---

## Roller Blinds

---

Roller blinds continue to captivate the imagination because they are sleek, tidy, and small, and they easily blend into any décor. You are sure to find a design that will delight you among the elegant selection of textures and hues created to wow. Roller blinds can be purchased in motorised variants for greater convenience of use and improved movement control.

## Printed Zebra Blinds

---

*"Introduced first time in India"*

If you are looking to get new zebra blinds for your office, home or workplace, then why not get them customize made with your own design or image printed on them? From Sophisticated geometric to graffiti walls, make your environment a reflection of the individuality that is uniquely you.

## Printed Roller Blinds

---

Why not have your own design or image printed on new roller blinds that you want to have produced specifically for your office, home, or place of business? Make your surroundings a reflection of the originality that makes you who you are, whether it be through sophisticated geometric patterns or graffiti on the walls.

## Zebra Blinds

---

Innovative roller blinds include zebra blinds, sometimes known as roller zebra blinds. Zebra blinds are made of solid weave fabric and sheer sunscreen, which is constructed so that light is let in when the sheer fabric overlaps and is blocked out when the solid fabric does. As a result, the zebra blinds offer the user a comprehensive package with reasonable pricing, appealing design, and excellent light filtering.

# WINDOW MOSQUITO NET

---

## Mosquito Net

---

When opened, this fitting system is a novel product that rolls up and vanishes into an aluminium part. When mosquito protection is required, it could be quickly pulled down and fastened at the bottom.

---

## Pleated Mosquito Net

---

The best fitment for locations where you need the option to remove the fitment! The interiors will benefit from the elegant and beautiful model of the pleated fitting option. The sliding pleated mesh could be opened, and it is supported by an invisible 2 inch aluminium frame. When closed, the mesh still allowed the breeze to enter and light to shine into the room without any restriction, so you could just close it when you needed mosquito protection.
